1ST MAY 2018

MAY DAY

We celebrate May Day with confidence and conviction to ensure that the basic tenets of our trade union movement remain the cornerstones for the future. We salute on the occasion of this great day all our comrades who work and struggle in every corner. The May Day at all times remain a beacon for the struggles against the forces that are inimical to the interests of the working class.

On this day, we extend our revolutionary greetings to all the trade union fraternities who have given so much in fighting for the basic rights such as right to freedom of association, right to collective bargaining, protection from discrimination and exploitation and safety at work.

The workers' bloodshed in Chicago in 1886 reminds us our duty today. May Day gives us an opportunity to reflect on the struggles, sacrifices and successes of the workers who stood up and demanded eight hours for work.

The rights and privileges we enjoy today are not given out of mercy. Every benefit is won through organized struggles and sacrifices. Whilst technology has contributed to the delivery of services to the clientele, our working conditions have been deteriorating. Our struggle for better wage and working conditions continues.

We are well aware that instead of standing up for the working people, there are formidable forces which are at work to eliminate the collective strength of the unions.

Our Union will always stand up for our central values of equality, dignity, development. It is the realization of these values, through the strength of collective action and solidarity that provides the promise of a better future for all of us.

It's time to regenerate ourselves to cast off the shackles on human rights. It is by organizing and consolidating our members' power in workplaces we will reinforce our strength to make that hope a reality.

Solidarity is not an act of charity. It is an act of unity. Revolutionary Greetings to all on this May Day !
